

The Calhoun Gold Mine, Lumpkin County, was owned by John C. Calhoun, the 7th Vice-President of the United States, until it was sold in 1939. It is currently listed on the National Register of Historic Places and is a National Historic Landmark. It is located just south of Dahlonega. The Georgia Gold Rush initiated on the property on which the Calhoun Mine remains and the mine was considered to be the richest producing gold mine in Georgia.
